

**Welcome to
Active Recall.**

**Tap in the center of this
card to continue.**

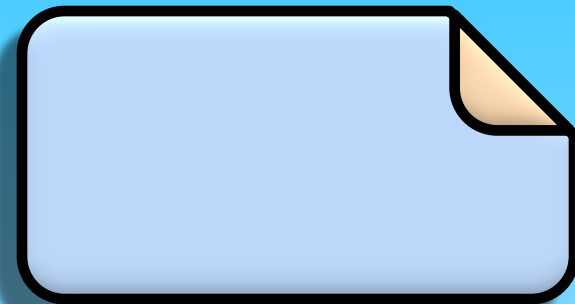

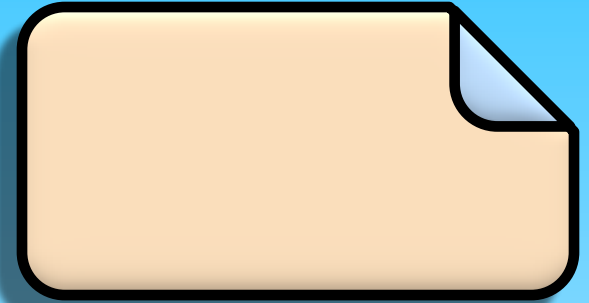

**This is the
back of the
first card.
Tap the
left...**

**...or the
right to
move on to
the next
card.**

**This is the front of
a card. To see the
back tap on the
center.**

**This is the back of a
card. Tap on the
center to look at the
front again. Or tap
on the right to
dismiss it.**

A white, stylized cloud shape with a soft drop shadow, centered on a solid light blue background. The cloud has several rounded lobes and a small tail-like extension at the bottom.

**If you think you've
learned a card,
tap on the right.
It'll be put back in
the deck.**

Try it any time.

**Tap on the center
of this card to see
the front again.**

**If you got a card
wrong,
tap on the left. It'll
be put back in the
deck near the top
so you see it again
soon.**

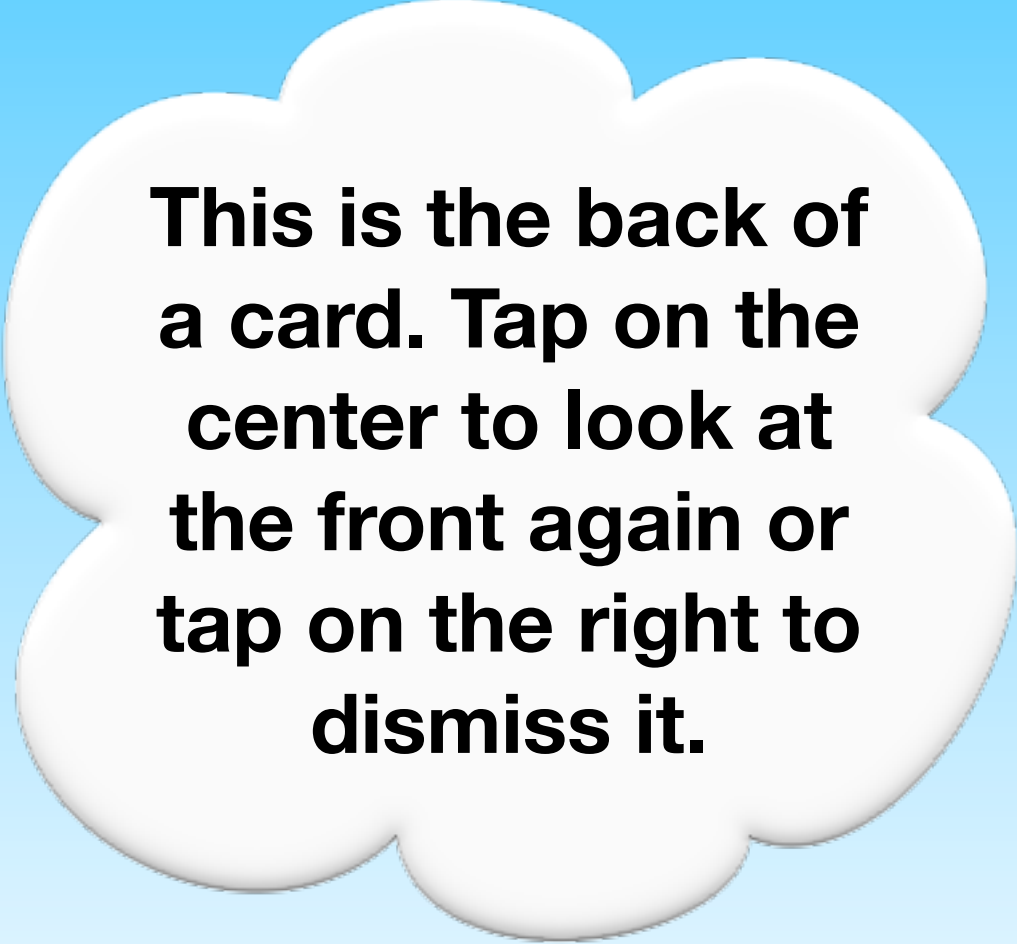

Try it any time.

**Tap on the center
of this card to see
the front again.**

**Swipe a card right
to send it to the
back of the deck**

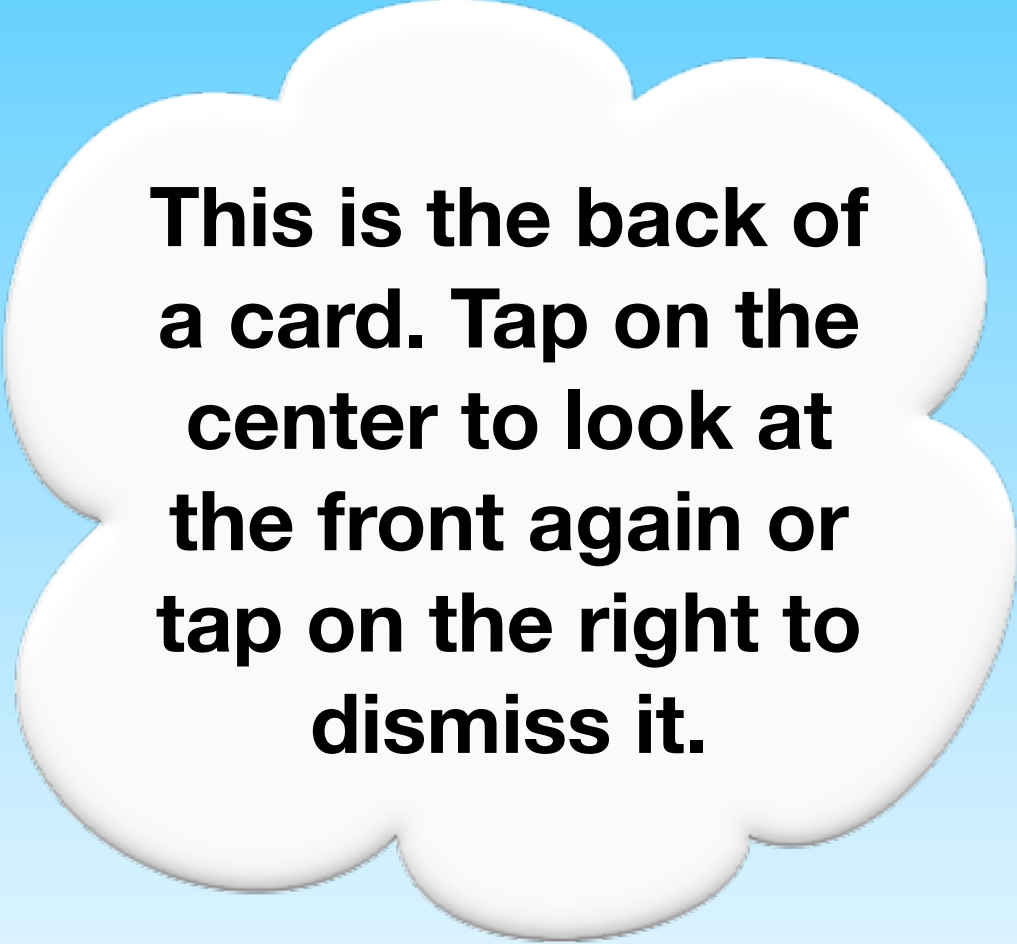

**This is the back of
a card. Tap on the
center to look at
the front again or
tap on the right to
dismiss it.**

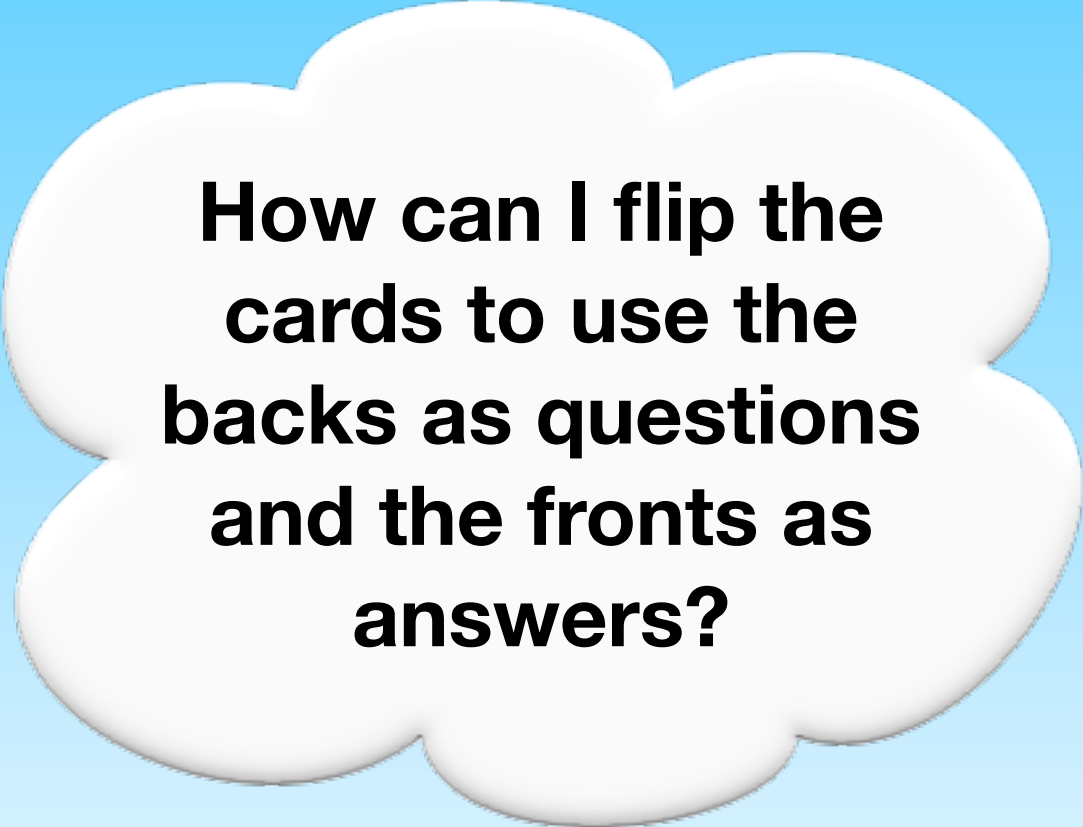

**Swipe to the left to
undo your last
action**

**Note that not
every action
can be
undone.**

**This is the back of
a card. Tap on the
center to look at
the front again or
tap on the right to
dismiss it.**

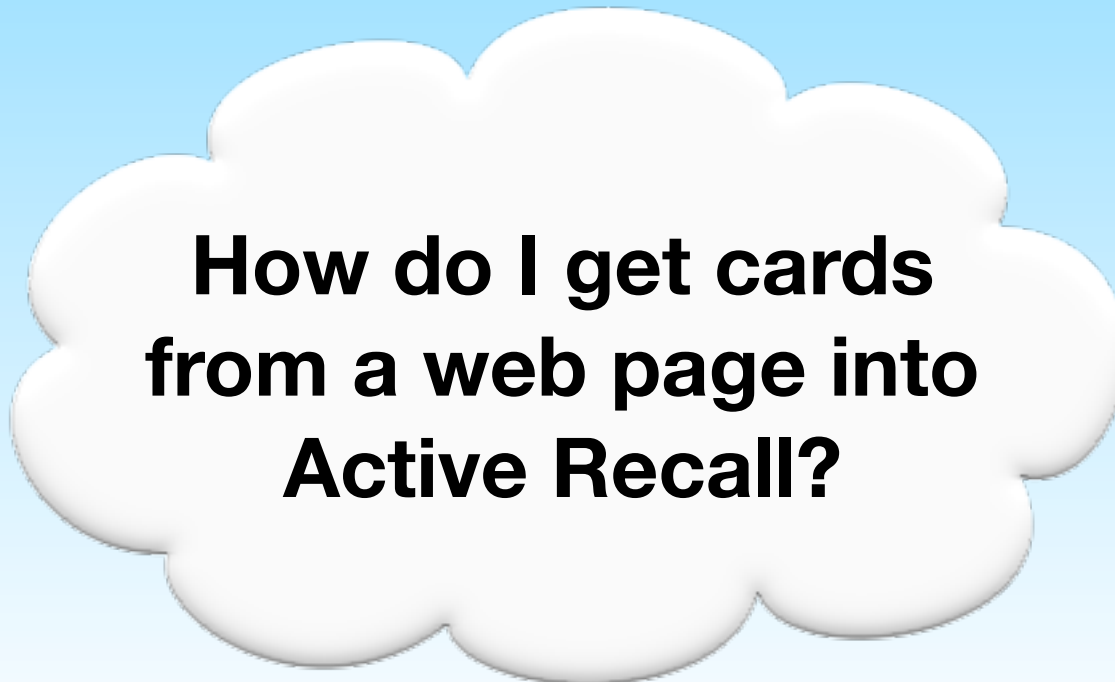

**How can I flip the
cards to use the
backs as questions
and the fronts as
answers?**

Tap on **Options**
and select **Flip**

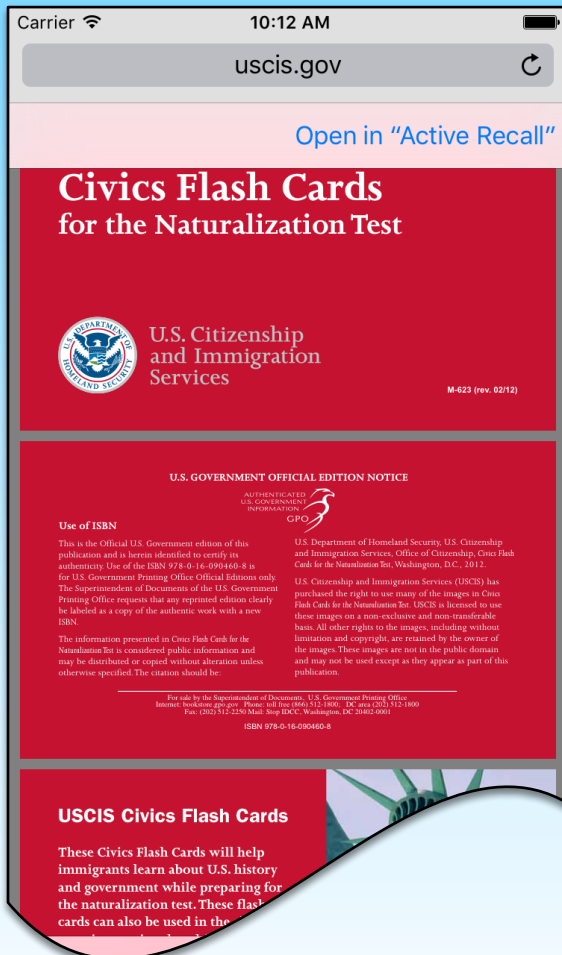

You may
want to try it
twice for this
card deck

**How do I get cards
from a web page into
Active Recall?**

Go to the PDF in
Safari and export to
Active Recall using
Open in...

**How can I create
my own cards?**

**You can use any application
that can export in PDF
format.**

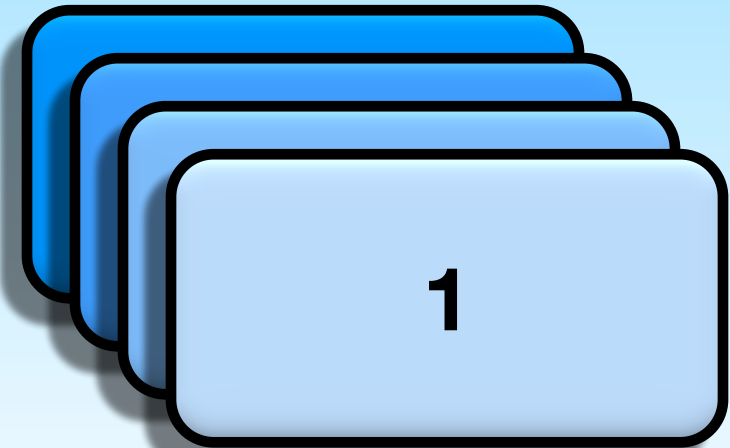

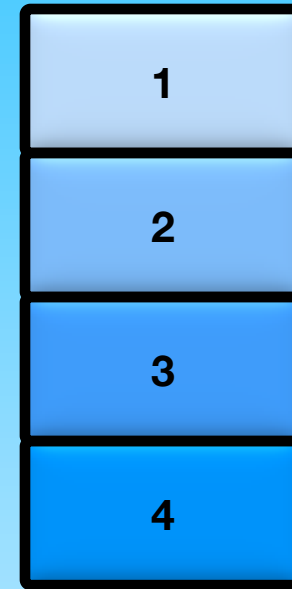

**So you can make cards in
Microsoft Word, Apple Pages
or Keynote, Omnigroup
Omnigraffle or even LaTeX.**

**Do I need a special
kind of PDF?**

**Almost any PDF will
do.**

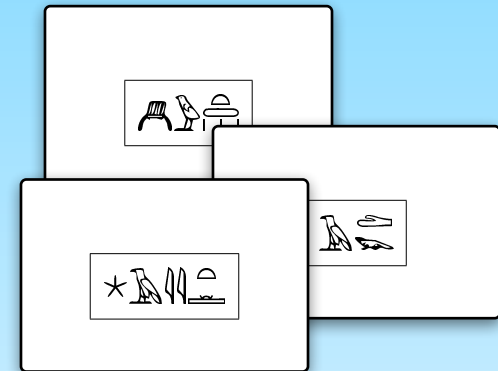

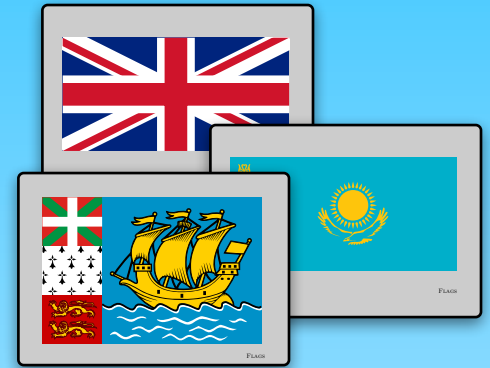

**The first two pages
become first card.
The next two pages
become the next
card. And so on...**

**Where can I get
card decks from?**

There are examples at
[http://
activererecall.tumblr.com](http://activererecall.tumblr.com)

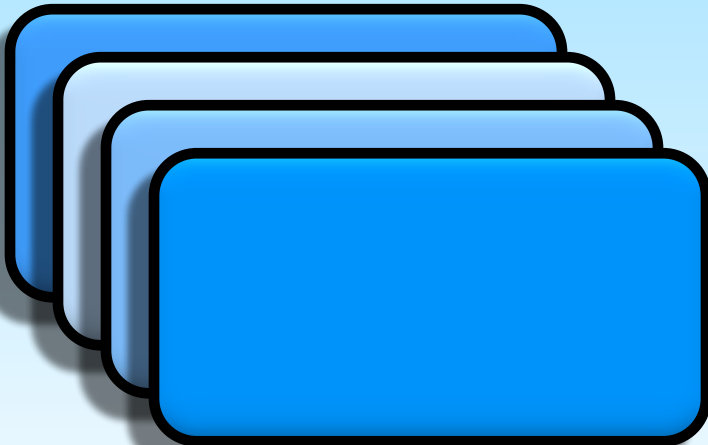

$$\frac{x^{n+1}}{n+1} + C$$
$$\frac{1}{2} \log(1-x^2) + x \tanh^{-1} x$$
$$\sqrt{1-x^2} + x \sin^{-1} x$$

**How can I
shuffle the
deck?**

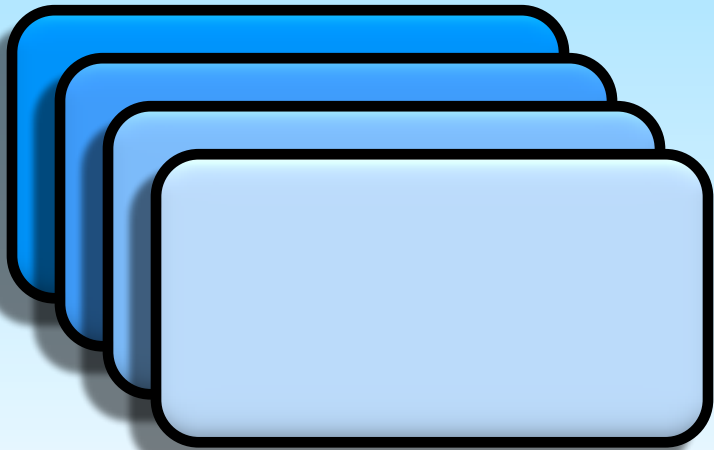

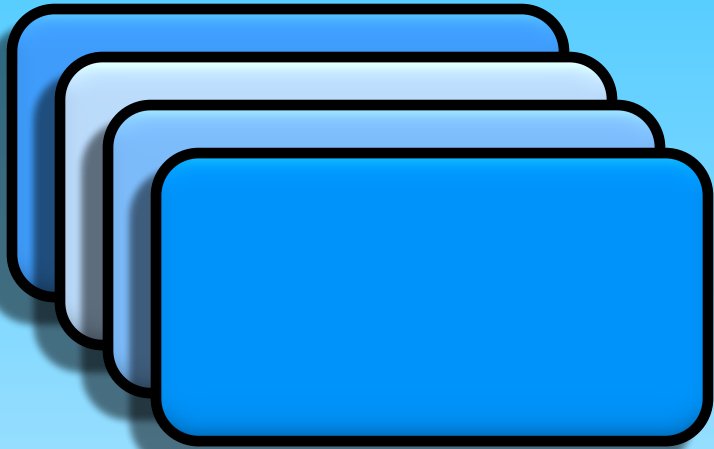

Tap on **Options**
and select
Shuffle

**How can I reset
the deck to how
it started?**

Tap on **Options**
and select
Reset
